MEMORANDUM FOR: Miss Eloise Page

SUBJECT : File Review

Per your conversation with Mr. Evans, it is most important for our record-keeping and to obviate future reviews that you record and provide to me that which has been copied from this material. Perhaps the easiest way is to simply provide us a copy of any material you reproduced. At a minimum, we would want the Executive Registry number, document date, the title of the document, and the name of the file from which it was removed.
